

ORDERS FOR DELIVERY TO OTHER COUNTRIES

Shipping costs vary greatly by destination and your choice of Telescope design. For each item a typical cost is given for Air and Sea shipment. These estimates are meant to help you to make your choice. Please email me for a more exact quote for your location.

Air shipping will take about 2 weeks after I finish your Telescope, and Sea shipping will take about 2 months. Remember that these are handcrafted instruments, and 1 ½ to 3 months are needed to build your scope in addition to the shipping transit time.

If you get deliveries through the APO system please use the US Order Form.

Please prepay your order with an International Money Order in U.S. Funds and mail to Stargazer Steve, 1752 Rutherglen Cres, Sudbury, ON, P3A 2K3, CANADA. Please ask your local Post-Office for the correct air postage for Canada. Please write to us giving the information to go in the blanks below (If you are able to print this page you can fill it in and send it to us).
